### COMPANY DESCRIPTION

Viva is a global supplier of injection-molded packaging for health and beauty products, including award-winning tubes and closures that are decorated using in-mold label technology (IML), are designed to be recycled, and offer savings on environmental impacts as well as high percentage post-consumer recycled material (PCR). Viva also manufactures 100% PCR deodorant sticks (oval and round) with IML, heavy wall PET jars and closures for beauty products, and personal protective equipment (PPE).

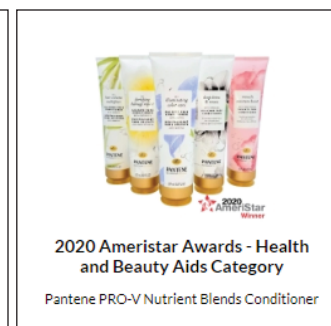

### NEW PRODUCTS

Viva now offers **up to 95% PCR** in tube and cap. Viva's newest products include a round deodorant stick and oval deodorant stick in 100% PCR with in-mold label technology, a cream deodorant tube, a powder tube with a measuring cup overcap, and heavy wall PET jars as clear as glass in sizes from 7mL to 100mL.

### MAJOR PRODUCTS
